ACTION IS LIGHT
ON MARKET DAYShort Session Largely Devoted to Week
End Settlements—War Shares
Features.

New York, Nov. 13.—Today's short session of the stock exchange was devoted largely to the regular week-end settlements of speculative accounts. Deliveries were light and lacked the impulse of public inquiry.

Motor stocks rose 2 to 6 points and Bethlehem Steel, Baldwin and Crucible rose more moderately. United States Steel showed the effect of releasing sales but copper held their recent advantage. The closing was irregular. Bonds were firm.

War shares and allied issues were the only features of interest in today's openings with gains of 1 to 2 points on moderate dealings. Metal stocks shared in the movement to a moderate degree, but most of the familiar speculative favorites were backward.

United States Steel rose a small fraction at the outset but soon fell back. Bethlehem Steel rose 2 points to 44½, with further activity in the automobile group. Initial transactions in Union Pacific and Lehigh Valley showed nominal losses, while Reading and Canadian Pacific were fractionally higher.

FOREIGN DEMAND
AIDS THE PRICESConfidence Is Established in Wheat
List by Signs of Greater Euro-
pean Activity.

Chicago, Nov. 13.—Signs of active European demand gave confidence today to wheat bulls. Liverpool reported foreign offerings scarce and belief growing that holders were becoming more reserved. The opening ranged from a shade to ¼¢ higher, with December at 1.04½@1.04½, and was followed by a decided advance.

No important reaction took place in wheat. The close was ¾ to 1¢ higher, with December at 1.05½ and May at 1.06½.

In the corn pit bullies advised regarding the quality of the crop in Illinois and other large producing states made values strong. The market, after opening unchanged to ¼¢ higher, scored a material additional upturn.

Corn closed at ¾ to ¼¢ net advance. Oats developed firmness with corn. Provisions went upward, influenced by the action of hogs and grain.

Charlie Chaplin's comic capers are too funny for the pulp, according to Rev. Samuel H. Woodrow of St. Louis. Speaking before the Woman's Board of Missions for the Interior of Milwaukee he said: "We never can make serious as interesting as melodrama or prayer meetings as amusing as Charlie Chaplin."

The mirrors which are frequently hung outside Dutch houses are so arranged that people sitting inside the house can, without being observed, enjoy the reflection of everything that takes place in the street.

WEATHER OBSERVATIONS

The moderate western low has moved southward to New Mexico and western Texas, attended by showers on the gulf and Pacific coasts and by snow flurries in the northern portion of the Rocky mountain region. An area of high pressure and colder weather overlies the north Pacific coast and the Rocky mountain plateau. Temperatures below zero are reported from northern Wyoming. The southern high has advanced to the Ohio valley and cooler weather has extended to the Atlantic coast. Low, or relatively low, pressures continue over southern Canada. Owing to the low pressures to the southwestward, unsettled weather is indicated for this vicinity, with rain to-night or Sunday. No decided change in temperature is expected.

SIGNS OF WINTER
PLAIN ON FIELDS

Evidences of Approaching Cold Season
Plentiful Among Troops in
Northern France.

Roulogne, France, Oct. 25. (Correspondence of the Associated Press).—Signs are plentiful that winter is close upon the troops in the north of France. The nights are already cold, far too cold for comfort, and the characteristic winter mist-mist from the marshes is in the air. The trees are not yet bare, but the leaves that remain have turned to a sallow yellow, while the roads are covered with fallen leaves which the soldiers here and there heap into little piles for a fragrant warming fire.

It is evident that there is to be another winter campaign; robbed, however, of much of the horror of last year's ordeal in boggy trenches and along impassable roads. In northern France, at least, winter will find the rival armies well prepared to receive it. The wet mud, the ice cold water knee-deep in the communication trenches, the ooze and discomfort of the dugouts, will be the exception rather than the rule this year. The shelters, even in the advance trenches, will generally be fairly livable, thanks to the plentiful use of concrete and tar, and the skillful employment of drainage.

Moreover, the armies will be properly clad and amply fed. The British soldiers will again don their sheepskins, supplemented by ample supplies of warm caps, socks and heavy boots of rather better type than last year's.

Many of the trenches now have brick floors, and practically all are drained and protected against landslide by timbering.

The great problem of the winter will be the billeting of all the new divisions which have come out since last year. In the villages well behind the firing lines, every outbuilding and old barn has been requisitioned, cleaned, repaired and made into shelter against the wind and cold. But nearer the firing lines most of the buildings have been smashed into ruins, and although they were usable for housing purposes during the summer, they are plainly impossible after mid-November. The problem is being dealt with to some extent by the building of portable houses and huts, but the armies grow too fast for the carpenters.

The work of the aeroplane observers gets more difficult as winter approaches. The fogs of the late autumn cling to the ground in little patches well into the day, while the evening mists make observations difficult soon after mid-observations.

GERMANS CROSSING THE RIVER SELWIANKA NEAR DVINSK

During the recent drives to reach Dvinsk the Germans found all progress across the river Selwianka blocked, due to the destruction by the retreating Russians of the bridges spanning the stream. The engineering division of the Teuton forces has stily constructed footbridges of logs across the river, permitting the infantry to cross.

The Day in Davenport

Sever Inspector Cut Off Pay Roll.—William (Buck) Kniphals, former assistant health officer and recently appointed by Commissioner J. W. Crowley as sewer inspector, was eliminated from the city pay roll Thursday by Street Commissioner Edens and City Engineer Boudinot Kniphals had been named by Commissioner Crowley to start his duties Monday.

It has been the custom for the commissioner of the board of public works to make such appointments, although the procedure is not upheld by the ordinance. —eliminating Kniphals from the pay roll Street Commissioner Edens and City Engineer Boudinot, other members of the board of public works, have appointed Barney McMahon, assistant street commissioner, in his place. Assistant McMahon now holds the dual title.

Brain Injury in Fall From Bike.—Alexander E. Carroll, aged 14, a student at St. Ambrose college, is suffering a concussion of the brain and three broken ribs as a result of a fall from his bicycle at an early hour yesterday. The youth was found unconscious at Sixth and Sylvan by a woman who was passing sometime after the accident occurred. The boy had started on an errand for his mother early in the day and rode from his home, No. 9 River view place, on his bicycle. Near the corner of Sixth and Sylvan he struck a sandy place in the street. A light rain fall the night before had made the roadbed soft and uneven at this particular point. The bicycle skidded and threw the youth violently to the ground. He struck on his head and was rendered unconscious.

Indicted for Stage Robbery.—Word has been received in Davenport of the indictment of Edward F. Trafton for the holding up of 15 stage coach passengers in the Yellowstone National park, July 29, 1914. Trafton got more than \$4,000 in his different holdups. Rev. Mr. Cole of the Methodist church in Davenport was one of the victims of the stage robber a year ago. He was traveling through the park on his vacation when he was relieved of his valuables, along with the other passengers.

At the Court House.—Judge Theophilus Thursday issued a decree of divorce to Anna Kroesen from Harvey Kroesen on the grounds of cruelty and desertion. A. L. Chazem is attorney for the plaintiff.

Jennie Rose was given a decree of divorce from Harry Rose by Judge Letts Thursday afternoon, desertion being the supported allegation. William Hoersch is the attorney for the plaintiff, who was given the right to resume her maiden name, Jennie Purdy.

The divorce case of H. L. Tibbets vs. Lew R. Tibbets, up for hearing before Judge Theophilus Thursday afternoon, was dismissed by the court without prejudice. A. L. Chazem was attorney for the plaintiff.

Dean Galloway of the New York state college of agriculture at Cornell points out the possibility of producing a peasant class in America by an insufficiently balanced back-to-the-land movement. Tilling the soil is highly honorable, but tilling without opportunity to enjoy the desirable refinements of civilization has its distinct drawbacks. The rural school, the library, good roads, better transportation, the chalet circuit and what are not ingredients of the remedy. It is a big problem, related potentially to all of the cultural resources of the country.
